GM GOODWRENCH SERVICE REPLACEMENT ENGINE LIMITED WARRANTY

To retain the safety and dependability built into this product, it is essential that your engine receives the scheduled maintenance at the recommended intervals contained in your vehicle Owner's Manual/Maintenance Schedule. Since emissions-related components vary by model and engine application, you may want to follow the emissions maintenance recommendations also contained in your vehicle's manuals.

Maintenance services should be done by an authorized GM dealer or other qualified automotive service or repair establishment that is able to provide such services and that can be relied upon to use proper parts and practices.

OBTAINING REPAIRS

- **GM Dealer Installation**—The GM dealer who initially installed the GM Goodwrench Engine Assembly or any GM dealer may perform the repairs. You must allow a reasonable period of time for repairs following delivery of the defective engine/vehicle to the GM dealer's place of business.
- **Independent Repair Center Installation**—The independent repair center that installed the GM Goodwrench Engine or any GM dealer may perform repairs. However, before any repairs can be performed under warranty by an independent repair center, the selling GM dealer must first authorize needed repairs as a sublet service.

The GM dealer or independent repair center must be furnished with the purchaser's original repair order or sales slip and this Goodwrench Engine warranty certificate (properly completed). This warranty is transferable to subsequent owners by providing the above-required documents to any purchaser of the vehicle in which the GM Goodwrench Engine was originally installed.
